Starting System (Model 811C)

The ATech Starting System Trainer (model 811C) is part of an electrical system program which presents the live operation and study of starter motor systems. This trainer allows for instuctor demonstration, student hands-on reinforcement and troubleshooting practice. Powered by a 12VDC automotive battery (not included). The Starting System is based on a CAN platform vehicle.

Features:

- New vehicle components, connectors, and factory wire colors.
- Provides an advanced level of instruction by duplicating actual on-vehicle troubleshooting procedures.
- Intermittent and hard faults can be inserted using the Instructor Management Program (IMP) via a computer connected to the trainer or over the ATech Network System (ANS).
- Hard faults can be inserted by using the built in keypad on the Starting System Trainer.
- Ability to perform actual service manual test procedures.
- Compatible with ATech's Instructor Management Program (IMP).
- Courseware includes Instructor Guide, Student Manual, and Service Manual Information.
- Battery posts are protected against polarity reversal.
- Includes external power supply for uninterrupted fault operation.
- User interface displays built-in scan tool data.
