

Power Window System (Model 840C)

The ATech Power Windows System Trainer (model 840C) is designed to teach computer and network controlled automotive power window operation. This trainer allows for instructor demonstration, student hands-on reinforcement and troubleshooting practice. Powered by a 12VDC automotive battery or a 12VDC/23A power supply (not included). The Power Windows System is based on a CAN platform vehicle.

Features:

- New vehicle components, connectors, and factory wire colors.
- Provides an advanced level of instruction by duplicating actual on-vehicle troubleshooting procedures.
- Intermittent and hard faults can be inserted using the Instructor Management Program (IMP) via a computer connected to the trainer or over the ATech Network System (ANS).
- Hard faults can be inserted by using the built in keypad on the Power Windows System Trainer.
- Ability to perform actual service manual test procedures.
- Compatible with ATech's Instructor Management Program (IMP).
- Courseware includes Instructor Guide, Student Manual, and Service Manual Information.
- Battery posts are protected against polarity reversal.
- Includes internal power supply for uninterrupted fault operation.
